
SURVEY PLAN NOTES:

Soundings were selected for plotting purposes only, using the depth closest to the center of a 18'x18' cell. Coastal Oceanographic's Hypack Sort program was used to perform the sounding selection.

The information depicted on this map represent the results of surveys made on the dates indicated and can only be considered as indicating the general conditions existing at that time.

The positions of the aids to navigation are provided for information only, and should not be used for navigation.
