of Engineers®**
Philadelphia District

PROJECT FACTSHEET

**New Jersey Shore Protection, Brigantine Inlet to
Great Egg Harbor Inlet, Brigantine Island, NJ**

October 2008

CONGRESSIONAL DISTRICTS: Rep. LoBiondo (NJ-2)

APPROPRIATION / PHASE:
Construction, General

BUSINESS PROGRAM:
Flood and Coastal Storm Damage Reduction

AUTHORITY: WRDA 1999

LOCATION: Brigantine Island extends 6.5 miles along the Atlantic coast of NJ from Brigantine Inlet to Absecon Inlet.

DESCRIPTION: The project provides flood and coastal storm damage reduction along Brigantine Island, utilizing sand from an offshore borrow source. The project will consist of berm and dune restoration along approximately 1.8 miles of coastline fronting the northern third of the city. The initial project construction cost is estimated at approximately \$4.5 million.

STATUS: FY 04, 05, & 06 funds were used to complete initial construction. The beachfill portion of the project was completed in February 2006. Dune grass, sand fencing and crossovers have also been completed. FY 08 funds were used for project monitoring. To date the FY 09 budget has not been approved. If this project receives funding in FY 09 project tasks will be determined based on level of funding. The 2nd periodic nourishment cycle is scheduled for FY 12.
