

**US Army Corps  
of Engineers®**  
Philadelphia District

**PROJECT FACTSHEET**

**New Jersey Shore Protection,  
Manasquan Inlet to Barnegat Inlet, NJ**

October 2008

**CONGRESSIONAL DISTRICTS:** Reps. Saxton (NJ-3), Smith (NJ-4)

**APPROPRIATION / PHASE:**  
Construction, General

**BUSINESS PROGRAM:**  
Flood and Coastal Storm Damage Reduction

**AUTHORITY:** Section 1001 (32) of the Water Resources Development Act of 2007.

**LOCATION:** The study area is located on the Atlantic coast of Ocean County, New Jersey, extending approximately 14 miles from Point Pleasant Beach to Island Beach State Park, a barrier island wildlife area.

**DESCRIPTION:** The study investigated flood and coastal storm damage effects with a view toward reducing impacts from coastal erosion and storms. The recommended plan calls for construction of a beachfill with a berm and dune along the study area oceanfront utilizing sand from an offshore borrow source and periodic nourishment for a period of 50 years. Initial fill requirements would be about 10 million cubic yards, with periodic nourishment at 4-year intervals with about 1 million cubic yards placed.

**STATUS:** The Chief of Engineers Report was completed in December 2003. This project was authorized in the 2007 Water Resources Development Act. The initiation of initial construction is dependent on the establishment of an adequate funding stream. The next steps toward initial construction once adequate funding is received is to initiate and complete the Limited Reevaluation Report; develop, approve and execute the Project Partnership Agreement; acquire the necessary real estate; complete plans and specifications; and advertise and award the construction contract. To date the FY 09 budget has not been approved. If this project receives funding in FY 09 project tasks will be determined based on the level of funding.

<b>TIMELINE</b>	<b>Start</b>	<b>Complete</b>	<b>Comments</b>
Initial Construction	TBD	TBD	Dependent on Adequate funding.
