<sup>1</sup>Check appropriate boxes that best describe potential for applicability of the Migratory Bird Rule to apply to onsite, non-jurisdictional, isolated, non-navigable, intra-state aquatic resource area.

TYPE OF DETERMINATION: Preliminary  Or Approved

ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 – site conditions; paragraphs 2-3 – rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 – site information on waters of the U.S. occurring onsite):

**Site Conditions:**

The property is a 0.22 acre (gross) tract identified as Block 184, Lot 9, located approximately 200 feet west of the intersection of Kennedy Drive and Michigan Avenue, in Ocean Township (Waretown), Ocean County, NJ. The site contains forested and emergent wetlands. Adjacent properties consist primarily of residential development. There are no watercourses on the site. The entire site, except for the area immediately adjacent to Michigan Avenue, is considered wetlands.

**Rationale for Determination:**

1. The wetland is too small, and does not contain enough standing water to support any type of watercraft and is therefore non-navigable in fact.

2. An isolated 0.2 acre forested and herbaceous wetland was identified on the property. The closest water of the United States to the wetland is Barnegat Bay that lies approximately 800 feet to the east. It should be noted that there are six rows of houses that are located between the site and Barnegat Bay. Given the distance to this tidal waterbody, the wetland is too far from the watercourse to be a neighboring wetland. In accordance with 33 CFR 328.3 (c), the wetland is not adjacent to a water of the US, but rather it is isolated.

a. The wetland was evaluated for a nexus to interstate or foreign commerce as follows: The small size of the wetland and the lack of any unusual properties make it unlikely that the wetland could be used for recreational, educational, or scientific use by interstate or foreign travelers (33 CFR 328.3 (a)(3)(i)). The wetland does not support fish or shellfish; the wetland does not contain sufficient water to irrigate crops or for use in industrial or commercial processes (33 CFR 328.3 (a) (3) (ii)). The wetland does not contain merchantable timber, there are no known mineral deposits, and the areas do not contain sand or gravel deposits that could be taken and sold in interstate or foreign commerce (33 CFR 328.3 (a)(3)(iii)).

b. Based upon the factors considered above, the wetland is an isolated, intrastate wetland with no nexus to interstate or foreign commerce. As such, pursuant to 33 CFR 328.3, the wetland is not a water of the United States, and is not subject to Section 404 of the CWA.

**Waters of the United States:**

There are no Federally regulated waters of the United States, including Federally regulated wetlands, on the subject property.
