January 23, 2004

Dear RAB Member,

For the past several years I have tried to hold a RAB Meeting in the January or February timeframe, but, once again, based on the project's funding and current schedule I am forced to postpone our meeting. The RAB Meeting, which was scheduled for February 18, 2004 is being postponed.

The next meeting will most likely be in late April. At that meeting the focus will be on the final data from Operable Unit 2 and this year's schedule. I would also like to discuss the communities future land use plans for the DuPont complex and review our latest newsletter. We had planned on discussing Risk Assessment; however, I believe based on our new schedule we may wait until next year.

You will be notified when the plans have been made for the April RAB Meeting. I apologize for any inconvenience this may have caused. I look forward to seeing you in April.

Sincerely,

George Bock
Project Manager
