RE: ITR REVIEW OF COMPREHENSIVE ECONOMIC REANALYSIS REPORT  
DELAWARE RIVER MAIN CHANNEL DEEPENING PROJECT  
(PENNSYLVANIA, NEW JERSEY, AND DELAWARE)

Dear Mr. Lulewicz:

The purpose of this letter is to inform you that I have reviewed the subject report. I have focused my review on the cost sections of the main report and cost appendix. I am in complete agreement with the statements made in the relevant portions of the report and the technical approach taken. The resulting costs are sound and consistent with the work we reviewed for the District. Further the new material presented in the latest report serve to strengthen the findings presented in earlier reports.

Please let me know if you have any further questions or comments.

Sincerely,

MOFFATT & NICHOL ENGINEERS

John R. Headland, P.E.  
Senior Vice President
