SUBJECT: CENAP-OP-R 2020-00366 (91)
Project Name: Stroudsburg Pocono Airport MN
Latitude and Longitude: 41.035729° N, 75.159986° W

Stroudsburg Pocono Airpark, LLC
c/o Mr. Troy Nauman
PO Box 407
Stroudsburg, PA 18360

Dear Mr. Nauman:

This letter is in regard to your request for a verification of a delineation of waters and wetlands performed by C & H Environmental on your behalf. The project area is located approximately 1,300 feet northwest of the intersection of Airport Road and Airstrip Road, Smithfield Township, Monroe County, Pennsylvania

The plans identified on the following page depict the extent of Federal jurisdiction on the subject property. The basis of our determination of jurisdiction is also provided (Enclosure 1).

Pursuant to Section 10 of the Rivers and Harbors Act and Section 404 of the Clean Water Act, a Department of the Army permit is required for work or structures in navigable waters of the United States and the discharge of dredged or fill material into waters of the United States including adjacent and isolated wetlands. Any proposal to perform the above activities within the area of Federal jurisdiction requires the prior approval of this office.

The delineation included herein has been conducted to identify the location and extent of the aquatic resource boundaries and/or the jurisdictional status of aquatic resources for purposes of the Clean Water Act for the particular site identified in this request. This delineation and/or jurisdictional determination may not be valid for the Wetland Conservation Provisions of the Food Security Act of 1985, as amended. If you or your tenant are USDA program participants, or anticipate participation in USDA programs, you should discuss the applicability of a certified wetland determination with the local USDA service center, prior to starting work.

This letter is valid for a period of five (5) years. This jurisdictional determination is issued in accordance with current Federal regulations and is based upon the existing site conditions and information provided by you in your application. This office reserves the right to reevaluate and modify the jurisdictional determination at any time should the existing site conditions or Federal regulations change, or should the information provided by you prove to be false, incomplete or inaccurate.

This letter contains an approved jurisdictional determination for your subject site. If you object to this determination, you may request an administrative appeal under Corps regulations at 33 CFR 331. Enclosed you will find a combined Notification of Appeal Process (NAP) fact sheet and Request for Appeal (RFA) form (Enclosure 2). If you request to appeal this determination, you must submit a completed RFA form to the North Atlantic Division Office at the following address:

Mr. James W. Haggerty
Regulatory Program Manager (CENAD-PD-OR)
U.S. Army Corps of Engineers
Fort Hamilton Military Community
301 General Lee Avenue
Brooklyn, New York 11252-6700
Telephone number: 347-370-4650

In order for an RFA to be accepted by the Corps, the Corps must determine that it is complete, that it meets the criteria for appeal under 33 CFR Part 331.5, and that it has been received by the Division Office within 60 days of the date of the NAP. Should you decide to submit an RFA form, it must be received at the above address by September 28, 2020.

It is not necessary to submit an RFA form to the Division Office if you do not object to the determination in this letter.

Due to the Corps need to work remotely in response to the COVID 19 global pandemic we are only issuing you an electronic copy of your Withdraw Letter. Please print and/or save this document for your records. If you require a physical copy of this document please inform your Project Manager and a physical copy of this document will be mailed to you when conditions allow.

If you have any questions regarding this matter, please contact Mr. Nathan Fronk at 267-284-6564 or by email at Nathan.r.fronk@usace.army.mil.

Sincerely,

Glenn R. Weitknecht
Acting Section Chief, Application Section I

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

D. Excluded Waters or Features

Excluded waters ((b)(1) – (b)(12)): ⁴				
Exclusion Name	Exclusion Size		Exclusion ⁵	Rationale for Exclusion Determination
Wetland B	1.548	acre(s)	(b)(1) Non-adjacent wetland.	Only connected to an (a)(2) water through an intermittent non-jurisdictional ditch. Since the ditch is not jurisdictional and provides the only connection to the (a)(2) water, the wetland is not jurisdictional.
Wetland C	2.169	acre(s)	(b)(1) Non-adjacent wetland.	Only connected to an (a)(2) water through an intermittent non-jurisdictional ditch. Since the ditch is not jurisdictional and provides the only connection to the (a)(2) water, the wetland is not jurisdictional.

Wetland E	0.02	acre(s)	(b)(1) Non-adjacent wetland.	Isolated wetland with no surface hydrologic connection to an (a)(1) - (a)(3) water.
Wetland F	0.05	acre(s)	(b)(1) Non-adjacent wetland.	Isolated wetland with no surface hydrologic connection to an (a)(1) - (a)(3) water.
Wetland G	0.005	acre(s)	(b)(1) Non-adjacent wetland.	Isolated wetland with no surface hydrologic connection to an (a)(1) - (a)(3) water.

Wetland I	0.22	acre(s)	(b)(1) Non-adjacent wetland.	Isolated wetland with no surface hydrologic connection to an (a)(1) - (a)(3) water.
Wetland J	0.20	acre(s)	(b)(1) Non-adjacent wetland.	Isolated wetland with no surface hydrologic connection to an (a)(1) - (a)(3) water.
Open Water A	1.00	acre(s)	(b)(1) Lake/pond or impoundment that does not contribute surface water flow directly or indirectly to an (a)(1) water and is not inundated by flooding from an (a)(1)-(a)(3) water in a typical year.	Isolated, man-made pond with no surface hydrologic connection to an (a)(1) - (a)(3) water in a typical year..

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

Excluded waters ((b)(1) – (b)(12)): ⁴			
Exclusion Name	Exclusion Size	Exclusion ⁵	Rationale for Exclusion Determination
Ditch 1	0.29	acre(s)	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1).
			Intermittent ditch that connects directly to UNT of Sambo Creek, however, there is no evidence that the ditch is part of a relocated tributary, was constructed in a tributary or was constructed an adjacent wetland.

D: APPROVED JURISDICTIONAL DETERMINATION: You may accept or appeal the approved JD or provide new information.

- **ACCEPT:** You do not need to notify the Corps to accept an approved JD. Failure to notify the Corps within 60 days of the date of this notice, means that you accept the approved JD in its entirety, and waive all rights to appeal the approved JD.
- **APPEAL:** If you disagree with the approved JD, you may appeal the approved JD under the Corps of Engineers Administrative Appeal Process by completing Section II of this form and sending the form to the division engineer. This form must be received by the division engineer within 60 days of the date of this notice.

E: PRELIMINARY JURISDICTIONAL DETERMINATION: You do not need to respond to the Corps regarding the preliminary JD. The Preliminary JD is not appealable. If you wish, you may request an approved JD (which may be appealed), by contacting the Corps district for further instruction. Also you may provide new information for further consideration by the Corps to reevaluate the JD.
