SUBJECT: Approved Jurisdictional Determination NAP-2021-00822-91
Project Name: 7654 Lakeshore Drive Arrowhead Lake MN
Center coordinates (41.15897°, -75.57099°)

Ms. Tracy Johnson
364 Oak Drive
Souderton, PA 18964

Dear Ms. Johnson:

This Approved Jurisdictional Determination (AJD) is provided in response to your request on July 27, 2021 for a determination of Federal jurisdiction by this office. The study area associated with your request is located approximately 1,250 feet west of the intersection of Onawa Trail and Lakeshore Drive in Coolbaugh Township, Monroe County, Pennsylvania.

The findings of this AJD are documented in the enclosed AJD Form. The findings are also depicted on the enclosed plan(s) identified as the "Study Area".

A Department of the Army permit is required for work or structures in "navigable waters of the United States" pursuant to Section 10 the Rivers and Harbors Act (RHA) of 1899 and the discharge of dredged or fill material into "waters of the United States" pursuant to Section 404 of the Clean Water Act (CWA). Any proposal to perform these activities within areas of Federal jurisdiction requires prior approval by this office.

Food Security Act statement: The delineation included herein has been conducted to identify the location and extent of the aquatic resource boundaries and/or the jurisdictional status of aquatic resources for purposes of the Clean Water Act for the particular site identified in this request. This delineation and/or jurisdictional determination may not be valid for the Wetland Conservation Provisions of the Food Security Act of 1985, as amended. If you or your tenant are USDA program participants, or anticipate participation in USDA programs, you should discuss the applicability of a certified wetland determination with the local USDA service center, prior to starting work.

A site inspection was conducted by a representative of this office on the above-mentioned property on August 25, 2021. It was determined that no federally regulated waters, including wetlands, are present within the above-mentioned study area. Therefore, this office has no geographic jurisdiction over the aforementioned study area. As such, a Department of the Army permit is NOT required for the discharge of dredged and/or fill material or to perform work and/or place structures within the aforementioned study area. The basis of our determination of jurisdiction is also provided (Enclosure 1).

This AJD is valid for a period of five (5) years. This AJD is issued in accordance with current Federal regulations and is based upon the existing site conditions and information provided by you in your application. This office reserves the right to reevaluate and modify this AJD at any time should the existing site conditions or Federal regulations change, or should the information provided by you prove to be false, incomplete, or inaccurate.

You may request an administrative appeal of this AJD if you do not accept this determination. Enclosed you will find a combined Notification of Appeal Process (NAP) and Request for Appeal (RFA) form. If you request to appeal this determination, you must submit a completed RFA form to the North Atlantic Division Office at the following address:

Ms. Naomi J. Handell
Regulatory Program Manager (CENAD-PD-OR)
North Atlantic Division, U.S. Army Corps of Engineers
Fort Hamilton Military Community
General Lee Avenue, Building 301
Brooklyn, NY 11252-6700

In order for an RFA to be accepted by the Corps, the Corps must determine that it is complete, that it meets the criteria for appeal under 33 CFR Part 331.5 and that it has been received by the Division Office within 60 days of the date of the NAP. Should you decide to submit an RFA form, it must be received at the above address by **November 15, 2021.**

If you have any questions regarding this matter, please contact Mr. Nathan Fronk by phone at 267-284-6564 or by email at nathan.r.fronk@usace.army.mil.

Sincerely,

Glenn R. Weitknecht
