

Summary of the 2026 Nationwide Permits¹

| Nationwide Permit (NWP) | Statutory Authority | Limits | Pre-Construction Notification (PCN) Threshold in Terms of NWP | Delineation Required? | Applicable Waters | Changes | Other Information |
|--|---------------------|--|---|-----------------------|------------------------------|---------|--|
| NWP 1 – Aids to Navigation | 10 | none | PCN not required | no | navigable waters of the U.S. | none | |
| NWP 2 – Structures in Artificial Canals | 10 | none | PCN not required | no | navigable waters of the U.S. | none | |
| NWP 3 – Maintenance | 10/404 | | | | | | |
| (a) Repair, rehabilitation, or replacement of previously authorized, currently serviceable structures or fills | | authorizes only minor deviations for maintenance | PCN not required | no | all waters of the U.S. | none | Does not authorize: maintenance dredging for the primary purpose of navigation; beach restoration; or new stream channelization or stream relocation projects. Limits stream channel modification to the minimum necessary for the maintenance activity. |
| (b) Discharges associated with removal of accumulated sediments and debris in the vicinity of existing structures, including intake and outfall structures and associated canals | | 200 feet from structure; minimum necessary to restore capacity intake or outfall or associated canal | all activities | yes | all waters of the U.S. | none | |
| (c) Temporary structures, fills, and work necessary to conduct maintenance activity | | | PCN not required | no | all waters of the U.S. | none | Temporary fills must be removed in their entirety and the affected areas returned to pre-construction elevations |
| NWP 4 – Fish and Wildlife Harvesting, Enhancement, and Attraction Devices and Activities | 10/404 | none | PCN not required | no | all waters of the U.S. | none | Does not authorize impoundments or artificial reefs. Does not authorize covered oyster trays or clam racks. |
| NWP 5 – Scientific Measurement Devices | 10/404 | 25 cubic yards for weirs and flumes | PCN not required | no | all waters of the U.S. | none | Devices and any associated structures or fills be removed upon completion of the use and restored to pre-construction elevations to maximum extent practicable. |
| NWP 6 – Survey Activities | 10/404 | 1/10-acre | PCN not required | no | all waters of the U.S. | none | Does not authorize fills for roads. Does not authorize permanent structures. Does not authorize fill associated with recovery of historic properties. Backfilling of exploratory trenches must not drain a water of the U.S. |

¹ This table is intended to provide **general** information on the 2026 nationwide permits published in the *Federal Register* on January 8, 2026 (91 FR 768). Permittees are responsible for reading and complying with the terms and conditions of the NWPs. For more information, see the USACE website at <https://www.usace.army.mil/Missions/Civil-Works/Regulatory-Program-and-Permits/Nationwide-Permits/>.

| Nationwide Permit (NWP) | Statutory Authority | Limits | Pre-Construction Notification (PCN) Threshold in Terms of NWP | Delineation Required? | Applicable Waters | Changes | Other Information |
|--|---------------------|----------|--|-----------------------|--|---|--|
| NWP 7 – Outfall Structures and Associated Intake Structures | 10/404 | none | all activities | yes | all waters of the U.S. | none | Activity must comply with National Pollutant Discharge Elimination System Program. |
| NWP 8 – Oil and Gas Structures on the Outer Continental Shelf | 10 | none | all activities | no | navigable waters of the U.S. | none | Limited to facilities in areas leased by the Bureau of Ocean Energy Management of the Department of the Interior. |
| NWP 9 – Structures in Fleeting and Anchorage Areas | 10 | none | PCN not required | no | navigable waters of the U.S. | none | Applies to structures, buoys, and other devices placed in anchorage or fleeting areas established for those purposes |
| NWP 10 – Mooring Buoys | 10 | none | PCN not required | no | navigable waters of the U.S. | none | Non-commercial, single boat mooring buoys |
| NWP 11 – Temporary Recreational Structures | 10 | none | PCN not required | no | navigable waters of the U.S. | none | Structures must be removed within 30 days after use discontinued. |
| NWP 12 – Oil or Natural Gas Pipeline Activities | 10/404 | 1/2 acre | <ul style="list-style-type: none"> a section 10 permit is required discharges that result in the loss of >1/10 acre new oil or natural gas pipeline greater than 250 miles in length | yes, if PCN required | see text of NWP | Revise Note recommending permittee provide information to National Oceanic and Atmospheric Administration (NOAA), National Ocean Service (NOS) for charting. Add Note recommending permittee contact USCG about project. | Temporary fills must be removed in their entirety and the affected areas returned to pre-construction elevations. |
| oil or natural gas pipelines | | | | | all waters of the U.S., including navigable waters | | Must restore area to pre-construction contours. |
| oil or natural gas pipeline substations | | | | | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | | |
| foundations for above-ground oil or natural gas pipelines | | | | | all waters of the U.S. | | |
| access roads | | | | | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | | Access roads must be constructed to minimize adverse effects to waters of the U.S. |

| Nationwide Permit (NWP) | Statutory Authority | Limits | Pre-Construction Notification (PCN) Threshold in Terms of NWP | Delineation Required? | Applicable Waters | Changes | Other Information |
|---|---------------------|---|--|-----------------------|--|---|---|
| NWP 13 – Bank Stabilization | 10/404 | <ul style="list-style-type: none"> 500 feet along the bank (unless waived by DE – waivers for bulkheads limited to 1,000 linear feet along the shore) 1 cubic yard per running foot (unless waived by DE) | <ul style="list-style-type: none"> >500 linear feet in length >1 cubic yard per running foot, as measured along the treated bank, below OHWM or HTL discharges into special aquatic sites | yes, if PCN required | all waters of the U.S. | <p>Add paragraph clarifying that nature-based solutions to provide habitat and other functions and services with bank stabilization activities.</p> <p>Add Note 2 to discuss hard and soft bank stabilization approaches and factors to consider when identifying an appropriate bank stabilization approach.</p> | Activity cannot impair surface water flow into or out of waters of the U.S. Temporary fills must be removed in their entirety and the affected areas returned to pre-construction elevations. Native plant species appropriate for site conditions, including salinity, must be used for bioengineering or vegetative bank stabilization. |
| NWP 14 – Linear Transportation Projects | 10/404 | <ul style="list-style-type: none"> 1/2 acre in non-tidal waters 1/3 acre in tidal waters | <ul style="list-style-type: none"> >1/10 acre discharges into special aquatic sites | yes, if PCN required | all waters of the U.S. | none | Temporary fills must be removed in their entirety and the affected areas returned to pre-construction elevations. Does not authorize storage buildings, parking lots, train stations, aircraft hangars, or other non-linear transportation features. |
| NWP 15 – U.S. Coast Guard Approved Bridges | 404 | none | PCN not required | no | navigable waters of the U.S. | Add “General Bridge Act of 1946” as an applicable law for bridges over navigable waters. | Causeways and approach fills for bridges are not authorized by this NWP; those activities require separate section 404 authorization. Bridge structures can be authorized by Section 9 of the Rivers and Harbors Act or other applicable laws. |
| NWP 16 – Return Water From Upland Contained Disposal Areas | 404 | none | PCN not required | no | all waters of the U.S. | none | Water quality issues addressed through Clean Water Act section 401 certification process |
| NWP 17 – Hydropower Projects | 404 | none | all activities | yes | all waters of the U.S., except navigable (i.e., section 10) waters | none | Applies to activities licensed by the Federal Energy Regulatory Commission or activities exempt from licensing requirements. |
| NWP 18 – Minor Discharges | 10/404 | <ul style="list-style-type: none"> 25 cubic yards discharged below plane of OHWM/HTL 1/10 acre of waters of the U.S. | <ul style="list-style-type: none"> >10 cubic yards discharged below plane of OHWM/HTL discharges into special aquatic sites | yes, if PCN required | all waters of the U.S. | none | Does not authorize discharges for stream diversions. |
| NWP 19 – Minor Dredging | 10/404 | 25 cubic yards below plane of OHWM/MHWM | PCN not required | no | navigable waters of the U.S. | none | Does not authorize dredging or degradation through siltation of coral reefs, submerged aquatic vegetation beds, anadromous fish spawning areas, or wetlands. Does not authorize the connection of canals to navigable waters. |

| Nationwide Permit (NWP) | Statutory Authority | Limits | Pre-Construction Notification (PCN) Threshold in Terms of NWP | Delineation Required? | Applicable Waters | Changes | Other Information |
|--|---------------------|---|--|-----------------------|--|--|---|
| NWP 20 – Response Operations for Oil or Hazardous Substances | 10/404 | none | PCN not required | no | all waters of the U.S. | none | Authorizes activities subject to the National Oil and Hazardous Substances Pollution Contingency Plan. Authorizes activities required for cleanup of oil releases in waters of the U.S. Authorizes use of temporary structures and fills for spill response training exercises. |
| NWP 21 – Surface Coal Mining Activities | 10/404 | <ul style="list-style-type: none"> 1/2 acre No valley fills | all activities | yes | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | none | Activities must be authorized, or currently being processed by states with approved programs under Title V of the Surface Mining Control and Reclamation Act of 1977. |
| NWP 22 – Removal of Vessels | 10/404 | none | <ul style="list-style-type: none"> if vessel listed or eligible for National Register of Historic Places activities in special aquatic sites | yes, if PCN required | all waters of the U.S. | none | Does not authorize maintenance dredging, shoal removal, or river bank snagging. Disposal of removed vessel in waters of the U.S. may require separate authorizations from EPA and Corps. |
| NWP 23 – Approved Categorical Exclusions | 10/404 | none | PCN not required, except for certain activities identified in RGL 05-07 | yes, if PCN required | all waters of the U.S. | <p>Modify paragraph (a) to replace references to Council on Environmental Quality regulations with reference to the National Environmental Policy Act.</p> <p>Notices of changes to the list of categorical exclusions eligible for NWP 23 will be placed in the Federal Register.</p> | Categorical exclusions must be approved by the Office of the Chief of Engineers. See RGL 05-07 for list of agencies and their activities that are currently eligible for NWP 23. |
| NWP 24 – Indian Tribe or State Administered Section 404 Program | 10 | none | PCN not required | no | navigable waters of the U.S. | Remove Florida from list of states that have been approved to administer the section 404 permit program. | Does not authorize activities in navigable waters that require only a section 10 permit. |
| NWP 25 – Structural Discharges | 404 | none | PCN not required | no | waters of the U.S. | none | Structure may require a section 10 permit if located in navigable waters of the U.S. Does not authorize structures that support buildings or similar structures. |

| Nationwide Permit (NWP) | Statutory Authority | Limits | Pre-Construction Notification (PCN) Threshold in Terms of NWP | Delineation Required? | Applicable Waters | Changes | Other Information |
|--|---------------------|--|---|--|--|--|---|
| NWP 27 – Aquatic Ecosystem Restoration, Enhancement, and Establishment Activities | 10/404 | none | PCN not required, Report required for all activities | If PCN required, see Note 2, general description and map of aquatic and terrestrial habitat types and their approximate boundaries on that site, substitutes for the delineation | all waters of the U.S. | <p>Change title of NWP.</p> <p>Modify paragraph on ecological references.</p> <p>Remove list of examples of activities that may be authorized by this NWP.</p> <p>Remove prohibition against conversions of non-tidal aquatic ecosystem types. Conversion of tidal wetlands to open waters must enhance the functions of tidal wetlands.</p> <p>Clarify that NWP does not authorize dam removal activities.</p> <p>Add Bureau of Land Management to list of agency agreements.</p> <p>Require reporting for all activities, instead of pre-construction notifications.</p> <p>Add Note 2 to state that description and map of aquatic and terrestrial habitat types on project site is to be used in place of a delineation of waters and wetlands required by general condition 32 when a PCN is required by a general condition or regional condition.</p> | Does not authorize stream channelization. Does not authorize relocation or conversion of tidal waters. Does not authorize conversion of natural wetlands or streams, except for relocation activities. Compensatory mitigation is not required for NWP 27 activities. |
| NWP 28 – Modifications of Existing Marinas | 10 | activities limited to authorized marina area | PCN not required | no | navigable waters of the U.S. | none | Does not authorize dredging, additional slips, dock spaces, or expansion in waters of the U.S. |
| NWP 29 – Residential Developments | 10/404 | 1/2 acre | all activities | yes | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | none | For residential subdivisions, the aggregate total loss of waters of the U.S. cannot exceed 1/2-acre. |

| Nationwide Permit (NWP) | Statutory Authority | Limits | Pre-Construction Notification (PCN) Threshold in Terms of NWP | Delineation Required? | Applicable Waters | Changes | Other Information |
|---|---------------------|---|---|-----------------------|--|---------|--|
| NWP 30 – Moist Soil Management for Wildlife | 404 | none | PCN not required | no | non-tidal waters of the U.S. | none | Authorizes only on-going activities. Does not authorize construction of new dikes, roads, water control structures, etc. Does not authorize conversion of wetlands to uplands. Does not authorize impoundments. Does not authorize activities that result in net loss of aquatic functions and services. |
| NWP 31 – Maintenance of Existing Flood Control Facilities | 10/404 | maintenance baseline approved by district engineer | all activities | yes | all waters of the U.S. | none | PCN must indicate location of sites for disposal of dredged or excavated material and baseline information. Authorizes the removal of vegetation from levees associated with a flood control project, if Corps permits are required for those activities. |
| NWP 32 – Completed Enforcement Actions | 10/404 | <ul style="list-style-type: none"> 5 acres of non-tidal waters 1 acre of tidal waters also see text of NWP | PCN not required | no | all waters of the U.S. | none | |
| NWP 33 – Temporary Construction, Access, and Dewatering | 10/404 | none | all activities in navigable (i.e., section 10) waters | yes | all waters of the U.S. | none | Associated primary activity must be authorized by Corps or U.S. Coast Guard, or be exempt from permit requirements. PCN must include restoration plan. |
| NWP 34 – Cranberry Production Activities | 404 | 10 acres, but activity cannot result in net loss of wetland acreage | all activities | yes | section 404 waters only | none | Does not authorize discharges in waters of the U.S. for attendant features, such as warehouses, processing facilities, or parking areas. |
| NWP 35 – Maintenance Dredging of Existing Basins | 10 | dredging to previously authorized depths or controlling depths, whichever are less | PCN not required | no | navigable waters of the U.S. | none | |
| NWP 36 – Boat Ramps | 10/404 | <ul style="list-style-type: none"> 50 cubic yards, unless waived by DE 20 foot width, unless waived by DE | <ul style="list-style-type: none"> >50 cubic yards >20 feet wide | yes, if PCN required | all waters of the U.S., except special aquatic sites | none | Section 10 permit required if dredging navigable water is necessary for access to boat ramp. No placement of material in special aquatic sites. |
| NWP 37 – Emergency Watershed Protection and Rehabilitation | 10/404 | none | all activities, except in cases where there is an unacceptable hazard to life or a significant loss of property or economic hardship will occur | yes | all waters of the U.S. | none | Prospective permittee should wait 45 calendar days before proceeding with the activity if the DE has not yet issued a verification letter, but may proceed immediately if there is an unacceptable hazard to life or significant loss of property or economic hardship will occur. |

| Nationwide Permit (NWP) | Statutory Authority | Limits | Pre-Construction Notification (PCN) Threshold in Terms of NWP | Delineation Required? | Applicable Waters | Changes | Other Information |
|--|---------------------|---|--|-----------------------|---|--|---|
| NWP 38 – Cleanup of Hazardous and Toxic Waste | 10/404 | none | all activities | yes | all waters of the U.S. | none | Does not authorize the establishment of new disposal sites or the expansion of existing disposal sites. |
| NWP 39 – Commercial and Institutional Developments | 10/404 | 1/2 acre | all activities | yes | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | Added additional examples of types of projects for which NWP 39 may authorize regulated activities. | Does not authorize construction of new golf courses or new ski areas. Authorizes the construction of oil or gas wells. For wind energy generating structures, solar towers, or overhead transmission lines, district engineer coordinates PCN and NWP verification with Department of Defense Siting Clearinghouse. |
| NWP 40 – Agricultural Activities | 404 | 1/2 acre | all activities | yes | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | none | NWP can be used for agricultural activities, regardless of whether applicant is USDA participant. Does not authorize aquaculture ponds. |
| NWP 41 – Reshaping Existing Drainage and Irrigation Ditches | 404 | none | PCN not required | no | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | none | Reshaping drainage ditch cannot increase capacity of ditch or drain additional waters of the U.S. Does not authorize relocation of drainage ditches constructed in waters of the U.S. |
| NWP 42 – Recreational Facilities | 404 | 1/2 acre | all activities | yes | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | none | Authorizes variety of recreational facilities, except for hotels, restaurants, racetracks, stadiums, arenas, or similar facilities (these may be authorized by NWP 39). |
| NWP 43 – Stormwater Management Facilities | 404 | 1/2 acre | all activities involving expansion or construction of SWM facilities | yes, if PCN required | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | State that NWP can be used to authorize nature-based solutions for managing storm water, with additional examples, to replace “low impact development integrated management features” and “pollutant reduction green infrastructure features”. | Does not authorize construction of new stormwater management facilities in perennial streams. Maintenance does not require PCN if limited to restoring original design capacities. Also authorizes low impact development integrated management features and pollutant reduction green infrastructure features. |
| NWP 44 – Mining Activities | 10/404 | 1/2 acre | all activities | yes | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | none | PCN must include final reclamation plan if reclamation is required by other statutes. |
| NWP 45 – Repair of Uplands Damaged by Discrete Events | 10/404 | Restore uplands to pre-event ordinary high water mark | all activities | yes | all waters of the U.S. | Revised time limit to submit PCN to district from 12-months to 18-months. | PCN must be submitted to district engineer within 18-months of date of damage; work must start or be under contract within two years of date of damage. |
| NWP 46 – Discharges in Ditches | 404 | 1 acre | all activities | yes | certain types of non-tidal ditches constructed in uplands and determined to be waters of the U.S. | none | NWP does not authorize discharges into ditches constructed in streams or other waters of the U.S., or in streams that have been relocated in uplands. |

| Nationwide Permit (NWP) | Statutory Authority | Limits | Pre-Construction Notification (PCN) Threshold in Terms of NWP | Delineation Required? | Applicable Waters | Changes | Other Information |
|--|---------------------|---|--|-----------------------|--|--|--|
| NWP 48 –Commercial Shellfish Mariculture Activities | 10/404 | none | New and existing activities that directly affect greater than 1/2-acre of submerged aquatic vegetation | yes | navigable waters of the U.S. | Exclude activities in navigable waters within Washington State. Revise Note recommending permittee contact USCG about project. Add Note recommending permittee provide information to National Oceanic and Atmospheric Administration (NOAA), National Ocean Service (NOS) for charting. | Does not authorize nonindigenous species not previously cultivated in the waterbody, aquatic nuisance species, or attendant features such as docks or staging areas. Does not authorize the deposition of shell material back into waters of the U.S. as waste. Project area is the area in which the operator is authorized to conduct commercial shellfish mariculture activities, as identified through a lease or permit issued by an appropriate state or local government agency, a treaty, or any easement, lease, deed, contract, or other legally binding agreement that establishes an enforceable property interest for the operator. |
| NWP 49 – Coal Remining Activities | 10/404 | Limited to sites that were previously mined for coal, but new mining may be conducted in adjacent areas if the newly mined area is less than 40 percent of the area being remined plus any unmined area needed for reclamation. | all activities | yes | non-tidal waters of the U.S. | none | Permittee must demonstrate net increase in aquatic resource functions through reclamation. Activities must be authorized by the Department of the Interior, Office of Surface Mining, or by states with approved programs under Title IV and V of the Surface Mining Control and Reclamation Act of 1977. Corps will review the SMCRA determination regarding the amount of previously unmined area necessary for the reclamation and make an independent determination of the amount needed. |
| NWP 50 – Underground Coal Mining Activities | 10/404 | 1/2 acre | all activities | yes | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | none | Activities must be authorized by the Department of the Interior, Office of Surface Mining, or by states with approved programs under Title V of the Surface Mining Control and Reclamation Act of 1977. If reclamation required, a copy of the plan must be submitted with PCN. Does not authorize coal preparation and processing activities outside of the mine site. |

| Nationwide Permit (NWP) | Statutory Authority | Limits | Pre-Construction Notification (PCN) Threshold in Terms of NWP | Delineation Required? | Applicable Waters | Changes | Other Information |
|---|---------------------|--|---|-----------------------|--|--|--|
| NWP 51 – Land-Based Renewable Energy Generation Facilities | 10/404 | 1/2 acre | <ul style="list-style-type: none"> discharges that result in the loss of >1/10 acre | yes | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | none | Authorizes construction, expansion or modification of land-based renewable energy production facilities, including attendant features. If only activity requiring DA authorization is utility line, then NWP 57 shall be used. Utility lines transferring energy to a distribution system, regional grid, or other facility are generally considered to be separate single and complete linear projects. For wind energy generating structures, solar towers, or overhead transmission lines, district engineer coordinates PCN and NWP verification with Department of Defense Siting Clearinghouse. |
| NWP 52 – Water-Based Renewable Energy Generation Pilot Projects | 10/404 | <ul style="list-style-type: none"> 1/2 acre No more than 10 generation units Floating solar panels in section 10 waters limited to 1/2-acre in size | all activities | yes | all waters of the U.S. except in coral reefs | <p>Revise Note recommending permittee provide information to National Oceanic and Atmospheric Administration (NOAA), National Ocean Service (NOS) for charting.</p> <p>Add Note recommending permittee contact USCG about project.</p> | Authorizes construction, expansion, modification, or removal of water-based renewable energy generation pilot projects and their attendant features. Limited to “pilot projects.” Placement of a transmission line on bed of a navigable water of U.S. from generation unit to land-based collection facility is considered a structure under section 10 and is not considered a loss of waters of the U.S. Prohibits activities in coral reefs. Structures in anchorage areas must comply with U.S. Coast Guard requirements. Does not authorize structures in established danger zones, restricted areas, etc. Upon completion of pilot project, associated structures and/or fills must be removed unless authorized by separate DA permit. Utility lines transferring energy to a distribution system, regional grid, or other facility are generally considered to be separate and complete linear projects. An activity located on an existing, maintained Corps project requires separate approval under 33 USC 408. For wind energy generating structures, solar towers, or overhead transmission lines, district engineer coordinates PCN and NWP verification with Department of Defense Siting Clearinghouse. |

| Nationwide Permit (NWP) | Statutory Authority | Limits | Pre-Construction Notification (PCN) Threshold in Terms of NWP | Delineation Required? | Applicable Waters | Changes | Other Information |
|--|---------------------|---|---|-----------------------|---|---|---|
| NWP 53 – Removal of Low-Head Dams | 10/404 | none | all activities | yes | all waters of the U.S. | none | Authorizes the removal of low-head dams for stream restoration and public safety. "Low-head dam" defined as a dam built to pass upstream flows over the entire width of the dam crest on a continual and uncontrolled basis. As a general rule, compensatory mitigation is not required for these activities because they result in net increases in stream ecological functions and services. NWP does not authorize regulated activities for restoration of stream in vicinity of former impoundment (these activities may be authorized by NWP 27), or bank stabilization activities (these activities may be authorized by NWP 13). |
| NWP 54 – Living Shorelines | 10/404 | <ul style="list-style-type: none"> 30 feet channelward of mean low water in tidal waters or mean high water line in Great Lakes (unless waived by DE) 500 feet along the bank (unless waived by DE) | all new activities; PCN not required for repair and maintenance of existing living shorelines | yes | all waters of the U.S. | <p>Add "gravel" and "cobbles" to the fill materials that can be used to construct living shorelines. Clarify that a portion of a living shoreline may consist of a pocket beach.</p> <p>Add language to authorize regulated activities associated with temporary access and dewatering.</p> | Authorizes construction and maintenance of living shorelines for shore erosion control. Living shorelines consist of natural and man-made materials. May include stone or reef structures to protect the shoreline from low to moderate energy waves. Living shorelines must have a substantial biological component, either tidal or lacustrine fringe wetlands or oyster or mussel reef structures. Does not authorize beach nourishment or land reclamation activities. Discharges of dredged or fill material into waters of the United States, including the construction of fill structures such as sills or breakwaters, must be the minimum necessary for the establishment and maintenance of the living shoreline. |
| NWP 55 – Seaweed Mariculture Activities | 10 | none | all activities | yes | navigable waters of the U.S., including federal waters on the outer continental shelf | <p>Revise Note recommending permittee contact USCG about project.</p> <p>Revise Add Note recommending permittee provide information to National Oceanic and Atmospheric Administration (NOAA), National Ocean Service (NOS) for charting.</p> | Prohibits the cultivation of an aquatic nuisance species as defined in the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 or the cultivation of a nonindigenous species unless that species has been previously cultivated in the waterbody. Structures in an anchorage area established by the U.S. Coast Guard must comply with the requirements in 33 CFR 322.5(l)(2). Structures may not be placed in established danger zones or restricted areas designated in 33 CFR part 334, Federal navigation channels, shipping safety fairways or traffic separation schemes established by the U.S. Coast Guard (see 33 CFR 322.5(l)(1)), or EPA or Corps designated open water dredged material disposal areas. |

| Nationwide Permit (NWP) | Statutory Authority | Limits | Pre-Construction Notification (PCN) Threshold in Terms of NWP | Delineation Required? | Applicable Waters | Changes | Other Information |
|---|---------------------|----------|--|-----------------------|--|--|---|
| NWP 57 – Electric Utility Line and Telecommunications Activities | 10/404 | 1/2-acre | <ul style="list-style-type: none"> a section 10 permit is required discharges that result in the loss of >1/10 acre | yes, if PCN required | all waters of the U.S. | <p>Revise Note recommending permittee provide information to National Oceanic and Atmospheric Administration (NOAA), National Ocean Service (NOS) for charting.</p> <p>Add Note recommending permittee contact USCG about project.</p> | Temporary fills must be removed in their entirety and the affected areas returned to pre-construction elevations. |
| electric utility lines and telecommunications lines | | | | | all waters of the U.S., including navigable waters | | Must restore area to pre-construction contours. |
| electric utility line and telecommunications substations | | | | | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | | |
| foundations for overhead electric utility line or telecommunication line towers, poles, and anchors | | | | | all waters of the U.S. | | |
| access roads | | | | | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | | Access roads must be constructed to minimize adverse effects to waters of the U.S. |
| NWP 58 – Utility Line Activities for Water and Other Substances | 10/404 | 1/2-acre | <ul style="list-style-type: none"> a section 10 permit is required discharges that result in the loss of >1/10 acre | yes, if PCN required | all waters of the U.S. | <p>Revise Note recommending permittee provide information to National Oceanic and Atmospheric Administration (NOAA), National Ocean Service (NOS) for charting.</p> <p>Add Note recommending permittee contact USCG about project.</p> | Temporary fills must be removed in their entirety and the affected areas returned to pre-construction elevations. |
| utility lines | | | | | all waters of the U.S., including navigable waters | | Must restore area to pre-construction contours. |
| utility line substations | | | | | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | | |
| foundations for above-ground utility lines | | | | | all waters of the U.S. | | |
| access roads | | | | | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | | Access roads must be constructed to minimize adverse effects to waters of the U.S. |
| NWP 59 – Water Reclamation and Reuse Facilities | 10/404 | 1/2-acre | all activities | Y | non-tidal waters of the U.S., except non-tidal wetlands adjacent to tidal waters | none | |

| Nationwide Permit (NWP) | Statutory Authority | Limits | Pre-Construction Notification (PCN) Threshold in Terms of NWP | Delineation Required? | Applicable Waters | Changes | Other Information |
|--|---------------------|--------|---|-----------------------|--|---------|---|
| NWP 60 – Activities to Improve Passage of Fish and Other Aquatic Organisms | 10/404 | 1-acre | <ul style="list-style-type: none"> discharges that result in the loss of >1/10-acre | Y | all waters of the U.S., including navigable waters | new NWP | Activities to improve or restore passage of fish and other aquatic organisms. Includes activities not authorized by NWP 27. Includes nature-based solutions to improve connectivity for fish and other aquatic organisms. |
